

Dear Sir or Madam;

Christian Radio - KLOVE 100.5, 100.9 and 102.3 MHz in Tucson, Arizona serves nearly the entire 500 square mile area.

KLOVE the ONLY (that I am aware of) FM-Band, clear w/ multiple transmission frequency FM Translators, providing the better coverage area at less interfering levels of power than most other FM Stations.

LPFM Station Licensing does NOT get the coverage for an area such as Tucson where lower population densities exist on the edges of town.

We in Tucson are experiencing a very high increase in Crime lately. We are praying for help to reach ALL of our city and the outlying areas nearest to it that often affect the city.

Please help us keep KLOVE reaching a city that desperately needs the Positive Message of Hope and Love that KLOVE offers in its everyday programming schedule.

I also financially support what KLOVE is doing for Tucson on a monthly basis.

These days, with the cost of everything going up, it is proof that God CAN do miracles, especially when I see how he's blessed me beyond everything I can give away.

Peace of mind - serenity in our often chaotic world cannot be bought, but it can be received because it was and always will be a free gift. I think that God made us that way and put a piece of himself into every one of us, and just waits to be found. KLOVE is a POSITIVE influence in a very negatively behaving society.

I Thank You for this opportunity to express this opinion.

Very respectfully submitted,
Frederick C. Hutt Jr.
